ARCTEK signs Chet Burks Productions *Company to provide service into 2009*

(Minneapolis) ARCTEK Satellite Productions, LLC, announced today they have entered into a three-year agreement with Chet Burks Productions, Inc. to provide mobile satellite transmission facilities for live productions of AMA SuperBike, ARCA, and GrandAm Racing. Terms of the agreement were not disclosed.

ARCTEK has provided Chet Burks with uplink facilities for the past four years. The new agreement extends that relationship into 2009.

“We are very pleased that Chet Burks Productions is continuing to rely on us for their satellite transmission services, said Shawn Erickson, ARCTEK partner and vice-president of production. “We look at this as not just a vendor-client relationship, but rather a partnership... working together to provide the racing coverage,” continued Erickson.

"We have worked with ARCTEK since their inception, and rate them number one in their ability to meet our ever-changing production needs. They are extremely reliable and a pleasure to work with," said Blyth Rhetts, General Manager, Chet Burks Productions.

“Shawn, Brian (Stanley) and Todd (Hanks) are part of the Chet Burks family. We trust ARCTEK to provide us with their best efforts every time, every production, every season,” continued Rhetts.

The majority of racing coverage produced by Chet Burks Productions is broadcast on SPEED Channel. Other CBP clients include ABC, CBS, ESPN, and Outdoor Life Network.

ARCTEK Satellite Productions was formed in January 2003 through the acquisition of Conus Communications’ Satellite Services Division. ARCTEK Satellite Productions operates uplinks and provides webcasting, single and multiple camera productions, production management, satellite media tours, video news releases, field producing and directing, planning and covering broadcast events, shooting b-roll and editing.

Besides its annual production for MDA, ARCTEK has worked on projects ranging from coordinating satellite media tours and video news releases for companies nationwide to covering breaking news for national networks, and broadcasting large scale events such as pay-per-view heavy-weight fights and hotel grand openings in Las Vegas. ARCTEK also has provided media support and production to broadcasters for the Celine Dion Grand Opening in Las Vegas.
